

PRO SAFE

Protection

Prosafe range offers a multi-risk protection: it is FR treated, antistatic, and protects against chemicals. This multi-protection fabric, its comfort, and its easy care, meets the requirements of today's modern industries.

Care instructions

Prosafe's composition perfectly suits most laundering processes.

Comfort

Thanks to its good weight compromise of 250g/m² and 360g/m² Prosafe is very well accepted by the wearers.
